**Terrain Description:**  Level                       Hilly

**Recipient:**

**Number of trees requested:** \_\_\_\_\_

- **donor trees** (multiples of 10): \_\_\_\_\_
- **commercial trees (5 or more):** \_\_\_\_\_

**Access for tractor to site of trees planting**  Yes  No

**Terrain Description:**  Level                       Hilly

## **Tree Descriptions**

### **Donor Trees:**

**Description:** Trees are generally 3 feet to 6 feet in height. Quality is good, though may not be tree farm or nursery perfect. They may be harvested from a grove of crowded trees but will fill out after being transplanted.

### **Commercial Grade Trees**

**Description:** Trees are generally 8 feet to 12 feet in height. Quality is very good, though may not be tree farm or nursery perfect.
